Introduction

Thanks to the work of our technical staff we can now introduce the new open-office which was built due to the Reconstruction project in Laboratory of Metallomics and Nanotechnologies. There is 10 working places and each workstation is equipped with modern computer with 24" screen, barcode reader and desktop LED lighting. All workstations are connected in network with central print server. Room is also equipped by multimedia TV with controlling computer for organizing workshops and meetings. The entire space is air-conditioned. The space is designed preferably for workers as postdocs, Ph.D. and pregradual students.

nuscript met the ICMJE „uniform requirements“ for biomedical papers.
