

## **Journal of Metallomics and Nanotechnologies**

**ISSN: 2336-3940**

**Call for papers – special issue, biophysical characterization of  
nanomaterials**

### **Dedicated to International Year of Light 2015**

- a) The theme of the image and/or figure must be associated with the light and its properties in any of its forms:
  - a. Any type of experiment instrumental (photometry, atomic absorption spectroscopy, chromatography)
  - b. From pictures of microscopic structures to images from stellar telescopes
  - c. Coloured complexes forming changes in the spectrum
  - d. Nanomaterials changing the optical properties
- b) The image must be of high quality and resolution and must be created in 2015!

**All other contributions will be warmly welcomed and considered for publication in**

**Journal of Metallomics and Nanotechnologies**

**Deadline for manuscripts submission: 31<sup>st</sup> July, 2015**

**Frequency:** 4 issues per year

**Status:** Published online/printed

**Subject Category:** Metal biochemistry, Biomedicine, Nanotechnologies

**Send your paper for submission at:** [zitkao@seznam.cz](mailto:zitkao@seznam.cz)

**See instructions for authors, templates and citation library at:**
