SCIENTIFIC NETWORK

Metallomic Scientific Network No. 11440027

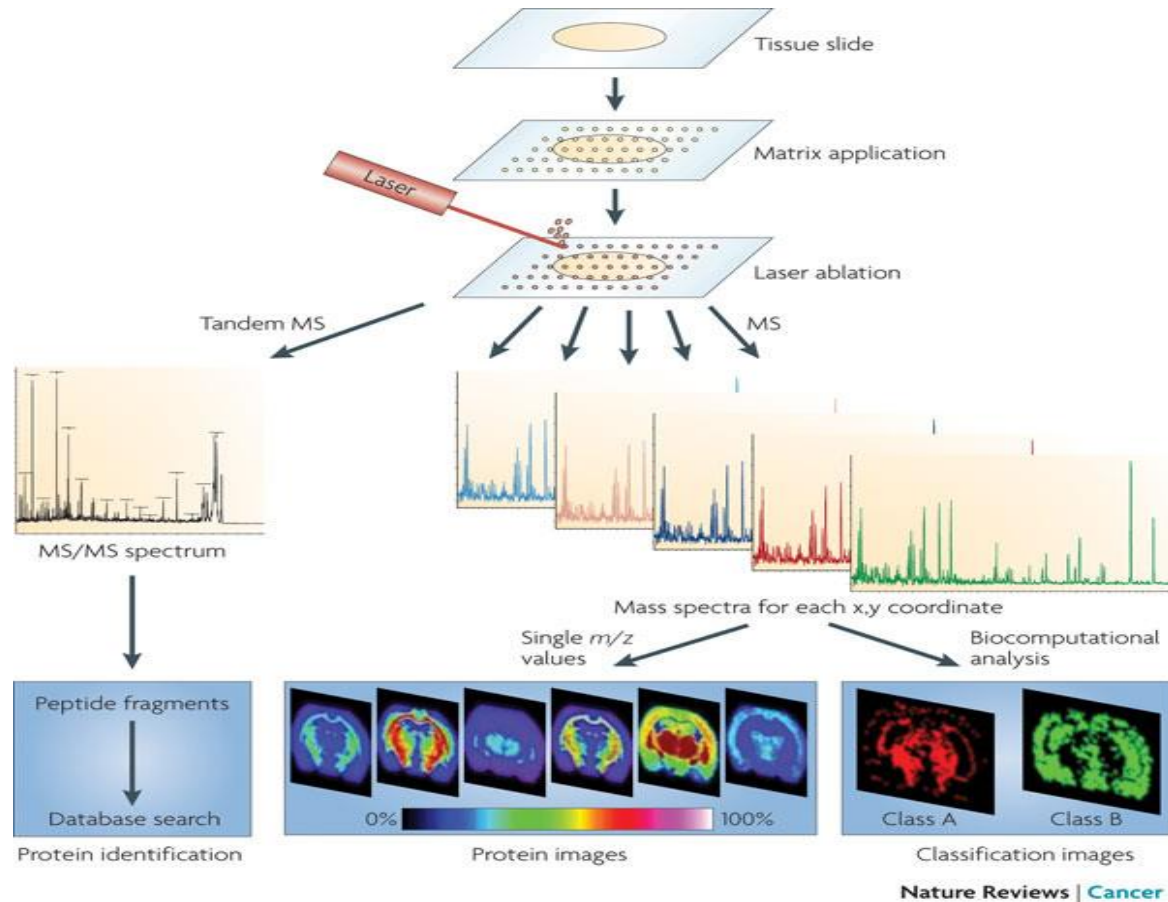

Název : MALDI Imaging of MT in tissue slices of tumors

Jméno: Roman Guráň

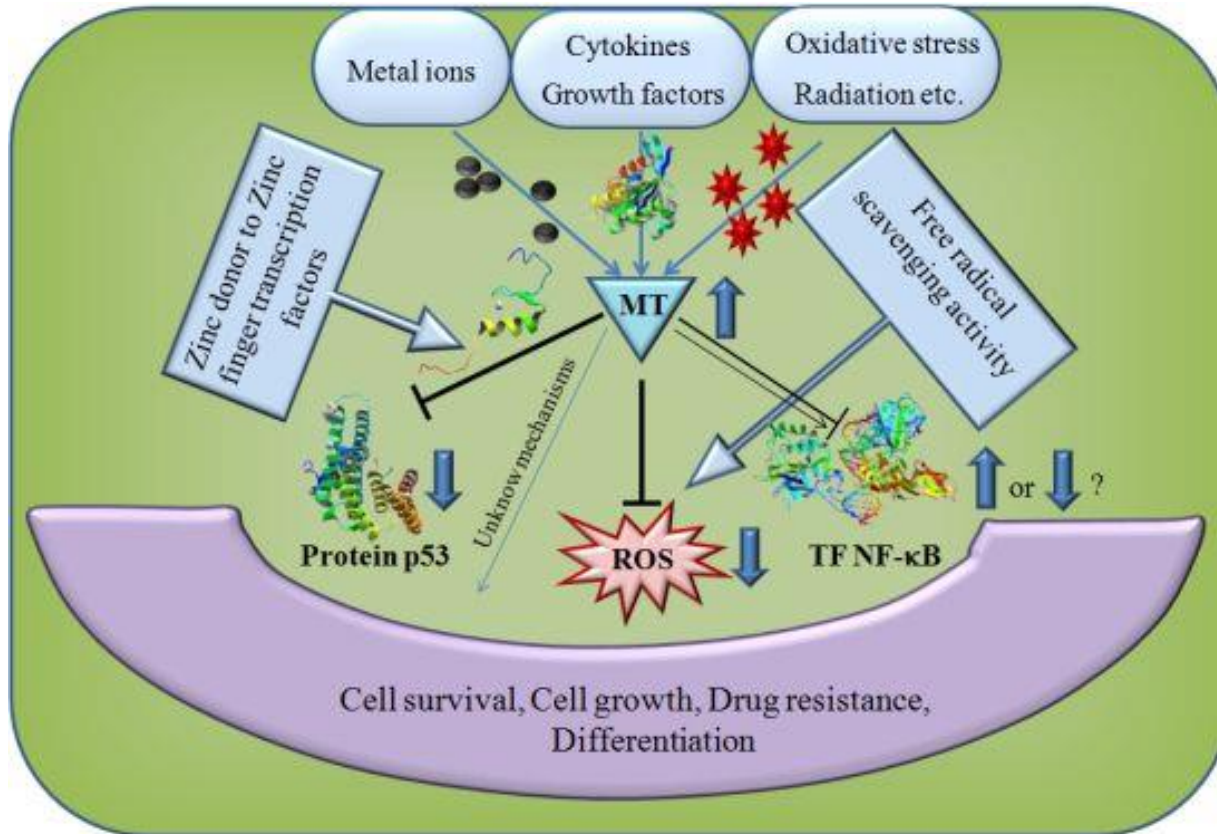

Datum: 5. 6. 2015

MALDI MSI

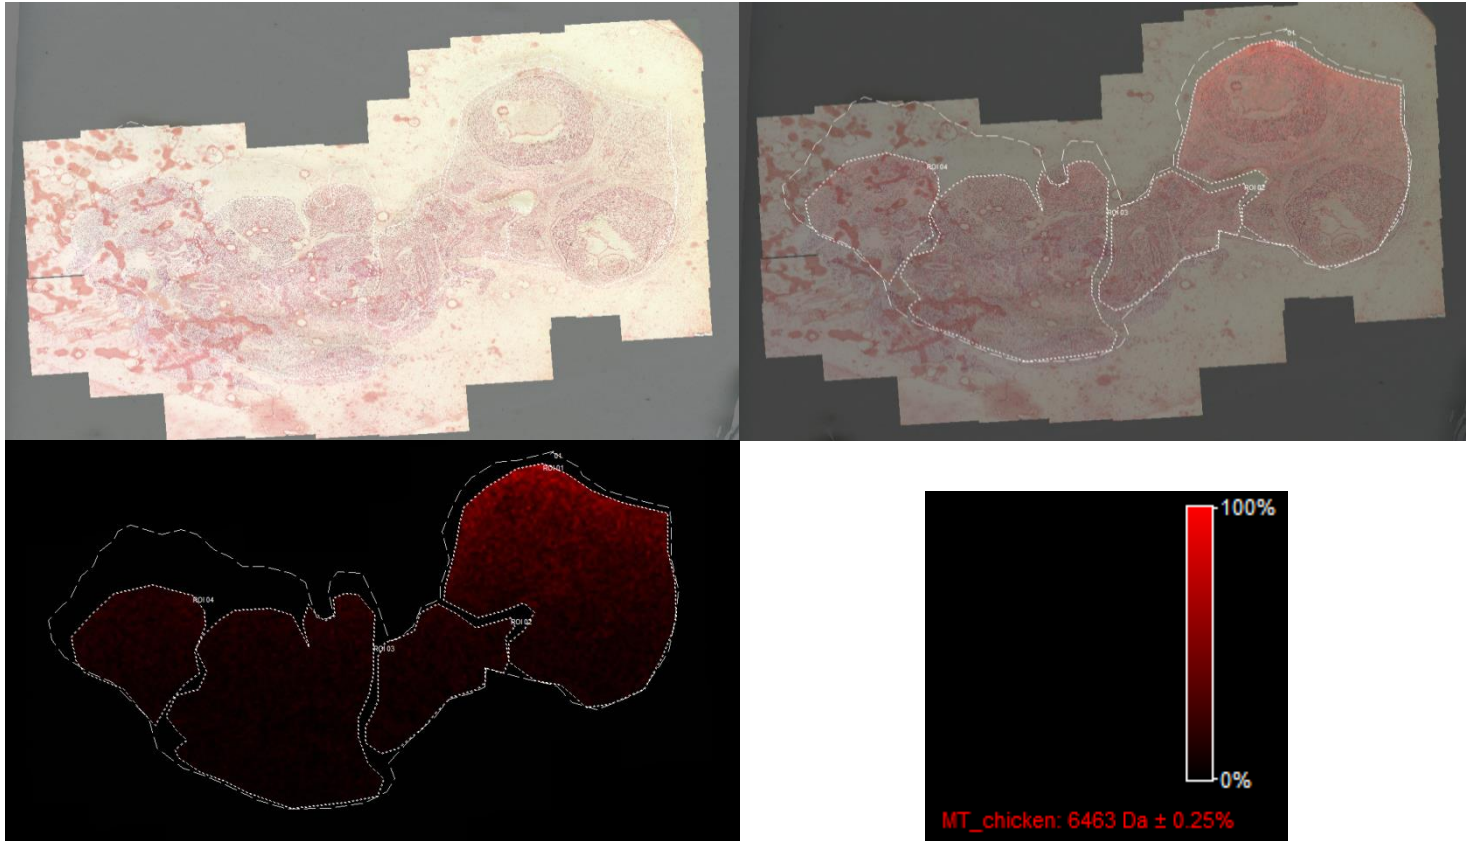

Metallothionein

Our aims

- Obtain tissue slices from different tumors
- Optimization of deparaffination and antigen retrieval
- MALDI MSI of metallothioneins in tumors

Results from different tissue

Acknowledgments

The project is supported by International Visegrad Fund,
www.visegradfund.org

Thank you for attention!
