

Vás zve na seminář; ID cíl 247:

Basic information: what is laboratory information system

Prof. Ing. René Kizek, Ph.D., RNDr. Josef Růžička, Petr Čapek, Mgr. Michal Horák

Abstrakt

Laboratory information system is electronic medium for good laboratory practice. This system has two big modules: LADYS and DOCHAZKA. LADYS screen contains:

information about Laboratories, Experiments modul and Tasks, Outputs, Projects and Budget. In right part are: new letters, new documents, information about instruments, new employees and seminars.
