Basic information: What is Experimental plan

Prof. Ing. René Kizek, Ph.D., RNDr. Josef Růžička, Petr Čapek, Mgr. Michal Horák

Abstrakt

Experimental plan is basic scientific information. Experimental plan connect to project (detail information we can obtain after press button – i). Other interesting part is field Aim of project (this is special part of IS). On the left part of IS we have special imaging system. Name of experimental plan has 250 letters. Note is part for main information about experiment. Tasks are special part for detail of experiment. On the right part we have database for chemicals and supplementary data.
