

Dear Colleagues,

We cordially invite you to participate in **THE 46TH ANNUAL MEETING OF EUROPEAN SOCIETY FOR NEW METHODS IN AGRICULTURAL RESEARCH (ESNA)** to be held in Krakow-Wieliczka, Poland between 29th August to 1st September 2017.

Particular focus of the Conference is “**FUTURE OF AGRICULTURE: BETWEEN BIOTECHNOLOGY AND SUSTAINABLE FARMING**”

The conference aims at bringing together scientists and experts of different research fields sharing a common interest in environment protection and application of new methods and biotechnology in agricultural research. The ESNA Society organizes annual meetings in various European countries which the scientific programme is devoted to fundamental and applied issues from the mentioned areas. Scientific topics of the 3 working groups are as follows:

WG 1. PLANT SCIENCES - Application of new methods in plant biotechnology.

WG 2. SOIL SCIENCES - New methods and their application in soil science.

WG 3. ANIMAL & FOOD SCIENCES - New methods and their application in food/feed and animal sciences in sustainable agroecosystems.

The ESNA meeting gives an excellent chance to learn about the newest developments and successful applications of new methods and techniques in agricultural research, to get into contact with experts in the field and to meet old and hopefully new collaborators and friends.

The organizers of THE 46TH ANNUAL MEETING OF ESNA 2017 are Agricultural University in Krakow, Malopolska Association for Agricultural Extension and Scientific Centre for biotechnology of the University of Agriculture in Krakow.

You find the first circular of ESNA 2007 attached. Please feel free to circulate this information among any colleagues that may be interested.

Please visit our homepage to see further details as well as the important deadlines:
