

# Diseases of legumes

variability of symptoms after infection by pathogens

Bean yellow mosaic virus on pea

Pea enation mosaic virus

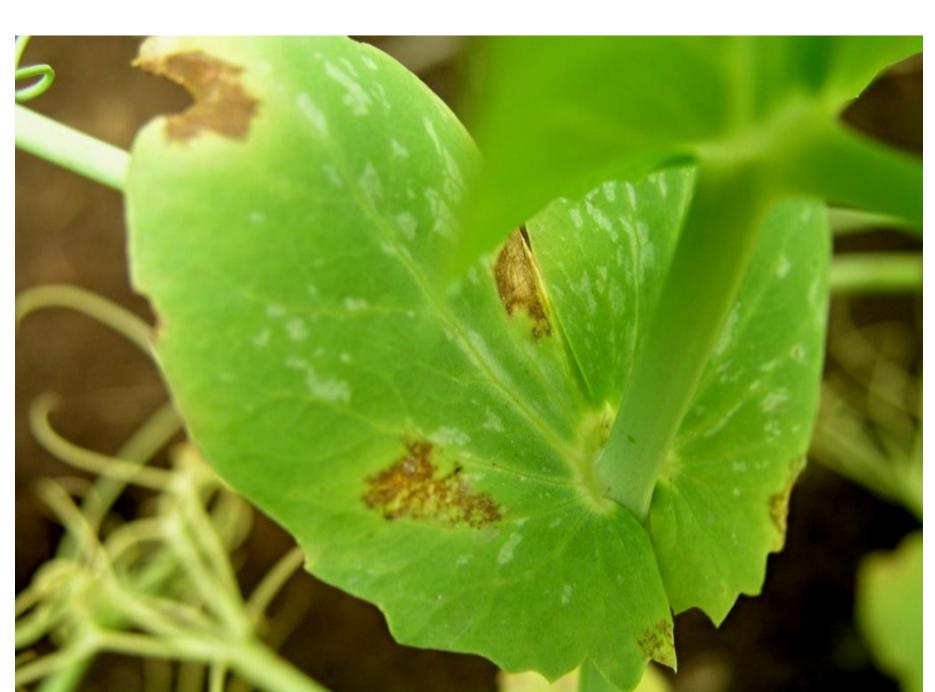

Xanthomonas axonopodis pv. phaseoli

Pseudomonas savastanoi pv. phaseolicola

Pseudomonas savastanoi pv. glycinea

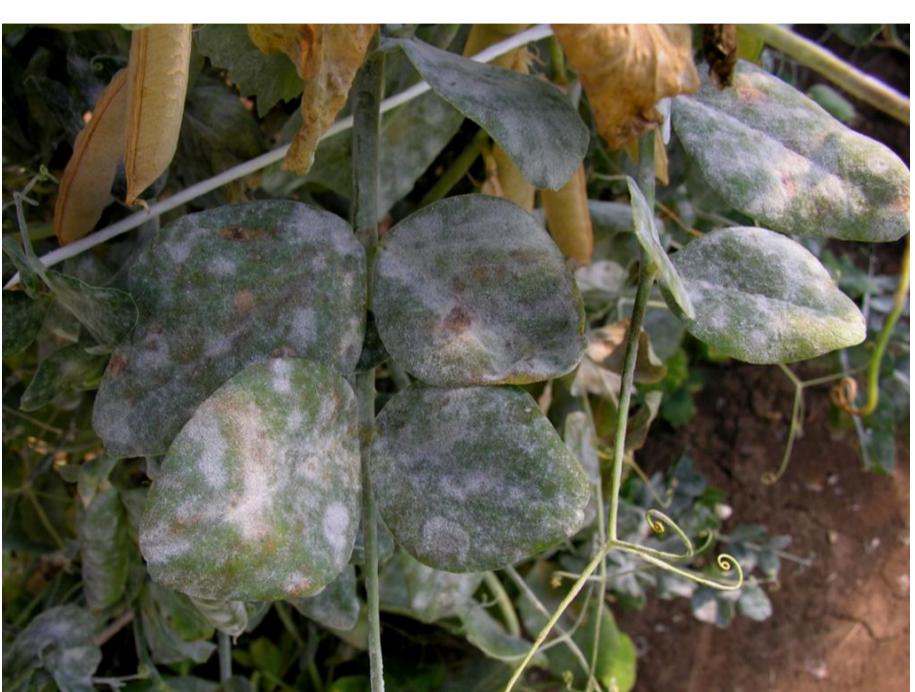

Peronospora pisi

Peronospora manshurica

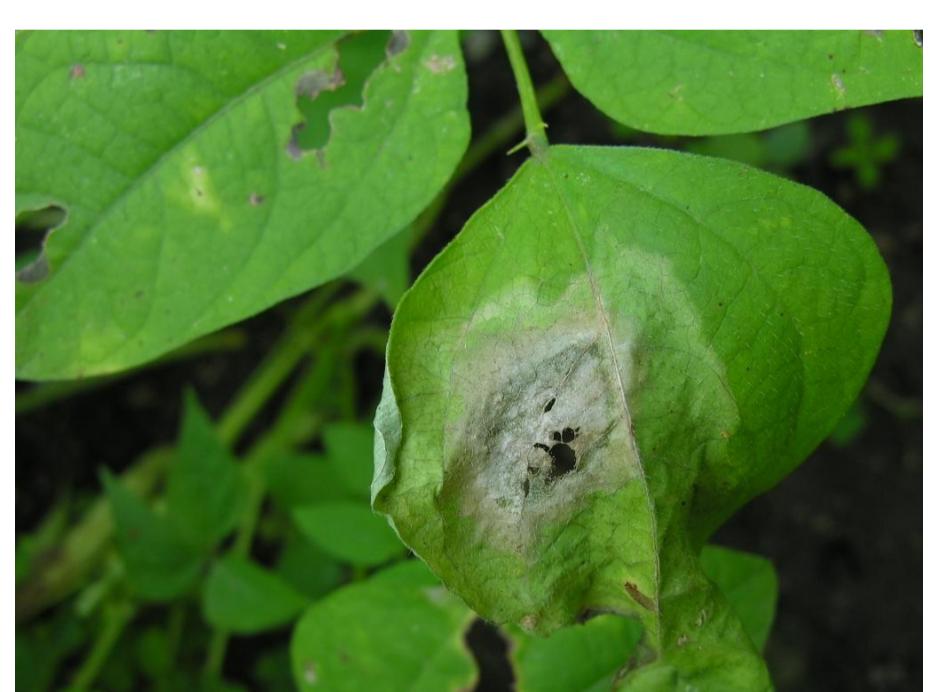

Erysiphe pisi

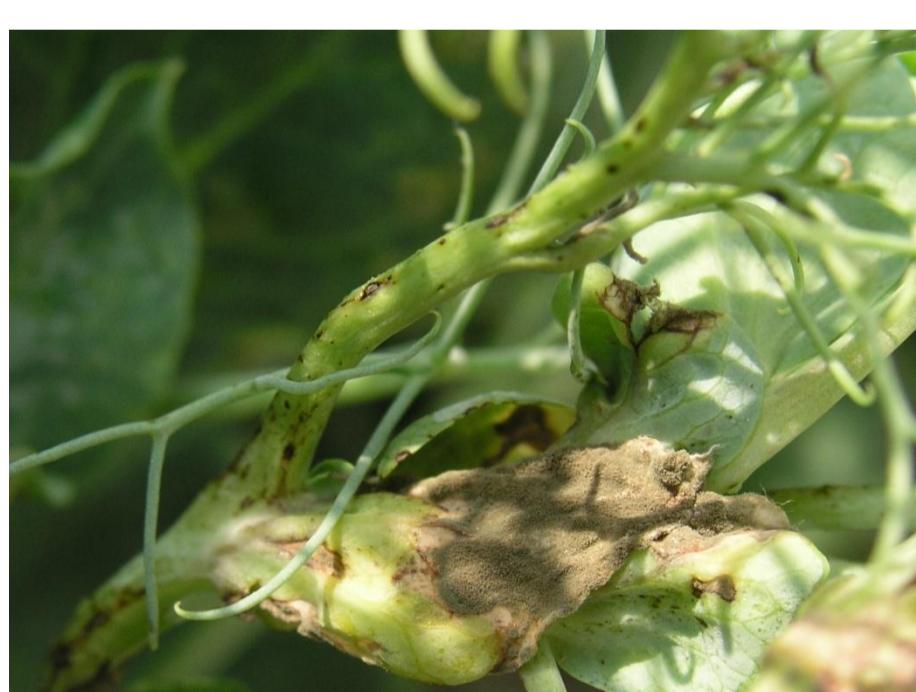

Uromyces pisi

Uromyces fabae

Botryotinia fuckeliana (t. Botryotinia cinerea)

Botryotinia fuckeliana (t. Botryotinia cinerea)

Mycosphaerella pinodes (t. Ascochyta pinodes)

Ascochyta pinodes

Mycosphaerella pinodes (t. Ascochyta pinodes)

Didymella fabae (t. Ascochyta fabae)
